Yalë Scripture Recording

A coworker in PNG completed the recording of several books for the Yalë people. Dan did the post-production processing that involved:

1. Copying all the files from PNG to his computer via the internet.
2. Listening to parts of each chapter and deciding what sound filtering would make the recording clearer and louder.
3. Creating a sequence of computer filters for processing each chapter.
4. Adding Yalë book name and chapter number text that is displayed while playing the audio.
5. Transferring the processed files back to PNG.

We do all this so that the people of PNG can clearly hear the Gospel in a form they can understand. Once the files were back in PNG, Dan connected to their computer and transferred the Yalë Scripture recordings to the main computer used to distribute Scripture to the people in PNG.

Ongoing NT Recording

Three teams are at Ukarumpa right now recording the Lokep New Testament, Menya Mark and Odoodee New Testament. Whether several days recording Mark or months working through the whole New Testament, pray that these team members are challenged and changed by The Word.

Wycliffe Scripture Celebration

Join us as we look back at the remarkable people and events that shaped Wycliffe's past, and get a glimpse of what's next as we look to the future of Bible translation. We'll also celebrate with language communities from different countries who now have access to Scripture in their language!

Praise for

- The completion of the Yalë Scripture recordings.
- Technology that makes all this possible.
- Dedicated workers who serve to get God's Word to the people.

Pray for

- Alertness and accuracy as each person does their part in the recording sessions; reading, checking, recording and editing.
- Health, strength and rest during the days and weeks of recording.
